

Trees

CREPE MYRTLE, MS FRANCIS

Mature Height: 20-30 ft.

Fast Grower

Hardy

CREPE MYRTLE, NATCHEZ

Mature Height: 18 ft.

Fast Grower

Hardy

ELM, LACEBARK

Mature Height: 40-60 ft.

Fast Grower

Hardy

MAGNOLIA, ALTA

Mature Height: 40-50 ft.

Average Grower

Evergreen Leaves

Fragrant Flowers

APPLE , FUJI

Mature Height: 20-25 ft.

Average Grower

Well Drained Soil

DRUMMUND MAPLE

Mature Height: 50-70 ft.

Average Grower

Shrubs

ABELIA, ROSE CREEK

Mature Height: 2-3 ft.
Full or Part Sun
Attracts Butterflies

NANDINA, FIREPOWER

Mature Height: 2-3 ft.
Full or Part Sun
Year-round Color

CREPE MYRTLE POKEOMOKO

Mature Height: 2-3 ft.
Full Sun
Drought-resistant
Blooms Early Summer to Late Fall

HYDRANGEA, NIKKO BLUE

Mature Height: 4-6 ft.
Part Sun
Blooms Mid to Late Summer
Attracts Bees and Butterflies

HOLLY, DWARF YAUPON

Mature Height: 3-5 ft.
Full or Part Sun
Perennial, Evergreen
Fall Berries

BUDDLIEA, PURPLE BUZZ

Mature Height: 3-4 ft.
Full or Part Sun
Blooms from May
to September

PHOTINIA, RED TIP

Mature Height: 10-12 ft.
Full or Part Sun
Grown for its Beautiful
Red New Growth

Grasses

DAYLILY, STELLA D'ORA

Mature Height: 10-12 in.

Full or Part Sun

Early to Mid Summer Bloomer

VARIEGATED LIRIOPE

Mature Height: 12-18 in.

Full, Part Sun or Shade

Reliable Ground Cover

PINK MUHLEY

Mature Height: 18-36 in.

Full Sun

Late Season Color

KARL FOSTER

Mature Height: 2 ft. w/o Blooms

Mature Height: 6 ft. with Blooms

Full or Part Sun

MAIDEN GRASS

Mature Height: 5-6 ft.

Full or Part Sun

Eye-Catching Texture

ARTEMESIA

Mature Height: 12-18 in.

Full Sun

Drought, Deer Tolerant

Flowers

PORTULACA

Full sun
Self-seeding

PURSLANE

Full or Part Sun
Well Draining Soil
Height 6 in.
Low Watering Once Established

PETUNIA

Full or Part Sun
Dead Head to keep blooming
Well drained soil
Attract Bees and Butterflies

CELOSIA

Full or Part Sun
Well Draining Soil
Blooms All Summer

DIANTHUS, COTTAGE PINKS

Full or Part Sun
Height 0 ft. 6 in. - 2 ft. 0 in.
Well Draining Soil
Attracts Bees and Butterflies

RUDBECKIA, BLACK EYED SUSAN

Full or Part Sun
1-3 ft. height
Blooms Summer and Fall
Attracts Bees and Butterflies

CORDAFOLIA

Full or Part Sun
Well Draining soil
Creeper
Height 6 in.

GAILLARDIA, BLANKET FLOWER

Full Sun
Height 2-3 ft.
Drought Tolerant

WONDERING JEW

Bright, Indirect Sunlight
Houseplant

Basic planting and care instructions:

Trees, shrubs, grasses:

- Dig a hole two to three times the size of the root ball and backfill hole with soil
- Remove plant from pot and separate all the roots
- Place the plant in the hole and do not cover with soil above the existing soil level on the roots
- Remove all air pockets for soil underneath the roots by gently using pressure with your fingers
- Water roots well to help remove air pockets
- Water deeply once to twice a week, depending upon rainfall and air temperature. It is essential that they are watered well in the first year.
- Stake up if necessary to keep trees from moving while roots are being established.
- Mulching is recommended (2-4"), however, do not place mulch directly against tree trunks.

Flowers:

- Dig hole large enough to accommodate flower and backfill with soil
- Remove flower from pot and gently place in hole
- Separate roots (if they are root bound)
- Place in hole and use fingers to gently remove any air pockets
- Water well
- Dead head (prune) to promote new blooms
- Mulching is recommended (2-4")

You may use a slow release or diluted liquid fertilizer when planting.

Other information may be obtained by searching online for the name of your plants.
